DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and /or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.3.12. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The following claim has been amended upon agreement by applicant during a telephone conversation with Mr. Leonard T. Guzman on 06/24/2009.

Amendments to claim 16:

Claim 16 (Currently Amended):

In a client-sever computing system having a cache and storing eXtensible Markup Language (XML) data as data objects, a method for determining invalid cached objects comprising:

transforming XML data into a format suitable for a client application based on a set of transformation rules;

determining dependencies between cached objects and XML data related to the cached objects;

wherein the dependencies are maintained in a table of dependencies;

wherein the step of determining the affected objects comprises the steps of: identifying the nodes associated with data updates; identifying the

Art Unit: 2163

transformation rules related to the identified nodes; determining a set of relevant style sheets using the table of dependencies, the relevant style sheets including the identified transformation rules; and identifying the cached objects that have been transformed by the relevant style sheets;

monitoring updates to the related XML data; and

determining the cached objects that are affected by changes to the related XML data based on the dependencies,

wherein data is represented as a tree structure having a plurality of nodes and

the cached objects that are affected by the data changes are determined using the tree structure.

The Examiner's amendment has been made in order to place the application in a condition for allowance.

Reasons for Allowance

3. The following is an examiner's statement of reason for allowance:

Claim 16 is considered allowable since the prior made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. James (U.S. 2003/0217169) or Challenger (U.S. 6,026,413), taken individually or in combination, do not teach the claimed invention having in a client-sever computing system having a cache and storing eXtensible Markup Language (XML) data as data objects, a method for determining invalid cached

objects comprising determining dependencies between cached objects and XML data related to the cached objects; wherein the dependencies are maintained in a table of dependencies; wherein the step of determining the affected objects comprises the steps of: identifying the nodes associated with data updates; identifying the transformation rules related to the identified nodes; determining a set of relevant style sheets using the table of dependencies, the relevant style sheets including the identified transformation rules; and identifying the cached objects that have been transformed by the relevant style sheets; determining the cached objects that are affected by changes to the related XML data based on the dependencies, with a combination of all recitations as defined in claim 16.

Therefore, claim 16 is presently allowed.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
